ASP = After-School Program

Hello Parents/Guardians!

With the close of winter and the beginning of spring we are thinking of new and renewal energy! Our energy! I am hoping that you, too, are finding that the length of sunlight and the warmer temperatures have encouraged you find a sense of renewal energy for all that you are striving for.

Our ASP team has been meeting to discuss how to continually best meet our students' needs as well as the needs of our community. Often the discussions lead to conversations with you, our partner in your student's success. As a result, we've realigned some of the our academic practice groups and with the attention to their changing needs. Other results have included discussions about the ease of transition between school day and ASP in regards to expectations, class needs and plans. We want you to know that all communication is so valued so that we are continually keeping a fresh—renewed— look at meeting your student's needs.

We have less than two months left of our 2017-18 ASP year... and yet we have a busy less than two months left. One event scheduled is our Family Night! This event will take place at the Necedah National Wildlife Refuge on Thursday, April 26th. Please plan to join us for dinner, student/family activity, and prizes!! This event is sure to please everyone! We will have ASP on this date.

As always please continue to keep me posted if you should have concerns or questions about your student's involvement in our Cardinal ASP and or how to best meet his/her needs. I value our communication!

Your partner in your student's success,

Linda Lowery
