Ensuring Student Success (MS/HS)

1) A concern arises regarding student classroom performance.

2) A referral is completed with teacher(s) collecting supporting evidence. Evidence may include observations, work samples, test scores, ...

3) A Student Success Team (SST) meets to collaborate on appropriate classroom strategies and interventions.

4) Implementation occurs and documentation of interventions is recorded.

Student responds positively to interventions (RtI):

SUCCESS!

Student does not respond in desired manner:

Steps 3 and 4 are repeated with different strategies.
